- Mike is a warm, insightful and entertaining speaker on topics ranging from ethical and effective services, to positive psychology, and crisis intervention.

## Creator of the World's Most Powerful Internet-Based Evaluation and Intervention Technology for Public Use

*"Dr. Conner has done something rare and amazing. He has created tools that can help children, adults, parents, and communities facing psychological and behavior problems. He then created an Internet based screening delivery system designed to involve, educate, empower and guide users. As someone who has seen technology often overwhelm the problem it is trying to solve, I am gratified to find a hard science so broadly and elegantly supporting the social science of improving people's lives."*
